COVID Disease Reporting Procurement Notice

To All Interested Bidders:

The California Department of Public Health (CDPH) and the California Department of Technology (CDT) are looking for innovative technology solutions to help improve the COVID-19 Disease Reporting System for COVID-19 lab results.

This Challenge Based Procurement is being conducted under PCC Section 6611, which provides the authority to use a competitive negotiation process when the State's business need or the purpose of a procurement or contract is known, but negotiation is necessary to ensure that the State is receiving the best value or the most cost-efficient goods, services, information technology, and telecommunications.

The State of California is seeking a robust and automated solution to collect, store and publish COVID-19 electronic lab reporting and case data for our constituents.

To Apply go to Tech.Covid19.ca.gov
