VII. PRICING FORMAT

A. Pricing for Line Items or Catalog

Proposers are requested to submit a proposal for offering their complete and total line of available products and services to governmental entities, including school districts.

If a name brand is mentioned in the specifications, proposals on any reputable manufacturer's regularly produced equipment of such items of a similar nature or similarly used and substantially equivalent will be considered.

The list or category of goods or services sought by this solicitation is inclusive and not exclusive. There may be other similarly used items that are sold by the responding vendors that may be included as part of the proposing vendor's "catalog" (defined below) now or during the life of the agreement that is considered included in this solicitation and subject to the minimum discount proposed. Pricing may also exclusively be line-item pricing or, and recommended, in combination with a minimum catalog discount.

Example: During the life of the agreement, models change, and new products come to market that is in the same category and are added to the vendor's "catalog" and are available for purchase by users of the agreement. If you fail to propose a minimum discount on your catalog, it may limit the ability to change the pricing of catalog items and services during the life of the award.

Definition of "catalog"

"Catalog" means the available list of tangible personal property or services, in the most current listing, regardless of date, during the life of the contract that takes the form of a catalog, price list, schedule, shelf price or another form that:

1. is regularly maintained by the manufacturer or vendor of an item; and
2. is either published or otherwise available for inspection by a customer during the purchase process;
3. to which the minimum discount proposed by the proposing vendor may be applied.

Adding New or Replacement Goods Items: During the Life of the Agreement, it is easiest to propose a Minimum Discount off (PREFERRED MODEL) catalog prices for goods or a markup on the vendor's cost of a good item.

Markup on cost

It is NOT recommended proposers use the Markup pricing method because many participants are not allowed to use a bid with a markup pricing method, specifically when using Federal Grant Funds. Using this pricing method may limit the effectiveness of your award.

If you choose to use the markup pricing method:

When proposing a markup on cost model, the vendor shall be required to provide proof of actual cost to the participant the goods sold to verify pricing markup is properly and legally applied for the sale of the goods.

NEW ITEMS: AspireCOOP will allow the addition of new goods items to be added to the agreement when they become available to the market through the vendor under the discount off the published pricing model or markup on cost model. You must stipulate a discount or markup on catalog price in the appropriate section

of the pricing Excel sheet to be eligible for this option. You may stipulate a discount off specific brands or lines of goods if you desire. Be thorough and concise. Any items added must be available to all customers, within legal or contractual limitations, if any. (Example: Apple products are not permitted to be sold to the education market without special agreement from Apple but may be sold to other government customers.)

REPLACEMENT OF DISCONTINUED OR LIMITED AVAILABILITY ITEMS: **When proposing a Line-Item pricing model -** AspireCOOP will allow replacement items to the original list item if it is no longer manufactured or is available in limited quantities. Limited availability must be documented by a letter from the manufacturer. The vendor may replace it with an item of like kind and quality and the price will remain the same as proposed, except if it is cheaper, the vendor shall lower the price accordingly and if it is more expensive due to the vendor's actual cost from the manufacturer, it will be priced and the same discount shall apply as the item it replaces. Vendor shall be required to prove the pricing if the cost is higher than the original core list price to the customer.

Note: If you propose a minimum Discount off catalog, you avoid this process since you are adding an item to your catalog and list price and the proposed minimum discount off catalog would apply to the new item.

Shipping cost: Pricing presented for goods offered should not include shipping costs from dealer to Participant customer. IF shipping is included in the price regardless of the situation, then you simply state no additional cost for shipping or delivery to any customer. Example: if you sell a vehicle and it includes delivery but the sale of vehicle parts does not, then be sure to specify the variations in your pricing. Shipping method is determined by the vendor and the Participant/Customer at the time of the quote/purchase by the Participant/Customer and satisfactory shipping methods and costs are agreed at that time. Shipping should be passed through by the Vendor at actual cost to the AspireCOOP Participant.

B. Discussion of Pricing Options

Proposals on any reputable manufacturers regularly produced goods falling within the general categories solicited herein will be considered for award. If a name brand is mentioned, it is only to illustrate type and quality and is not intended to restrict competition. Any list included herein is inclusive and not exclusive. There may be other similarly used items that are sold by the responding vendors that may be included as part of the proposing vendor's "catalog" (Defined above) now or during the life of the contract that are considered included in this RFP. Example: During the life of the contract, models change, and new products come to market that are in the same category and are added to the vendor's "catalog" and are available for purchase by users of the contract provided the catalog discount or cost markup proposed is honored by the awarded vendor.

AspireCOOP leaves it to the proposer to determine what goods or services that perform or serve this function and the proposer may list or include anything applicable. This includes a multitude of various **Facility Maintenance and Managed Services and Supplies** related services. Vendors may submit for one specific trade or multiple trades. Vendor may submit for the trades listed in this RFP or other related trades not listed. Response submittals will be evaluated by Aspire Works Purchasing Cooperative.

A discount off list price pricing model is ideal as list prices change over the life of the awarded agreement. Possible pricing models are discussed in this document. Any other goods and services that are logically related to this general category should be included. AspireCOOP reserves the sole right to determine whether or not proposed goods or services are logically related to this general category.

Bidder should list all related services, installation, repair, maintenance, travel, lodging, per diem, and hourly fees or

other defined and specified unit cost according to category offered on this contract. No inappropriate offerings will be considered.

The contractor shall furnish all necessary labor, materials, tools, supplies, equipment, transportation, supervision, management and shall perform all operations necessary and required for services. All work shall be performed in accordance with the requirements set forth in the resulting contract and each mutually agreed upon work request or purchase order issued by AspireCOOP participating participants.

Since the list of items a vendor may carry is potentially very long, and items are removed and added to the market frequently, it may be more advantageous to propose a minimum discount off your catalog for goods and services. You may offer different discounts for different brands or lines or services of goods if you choose.

A zero discount off catalog proposal is permitted, but AspireCOOP encourage vendors to propose the best discount they feel is necessary to compete with other retailers to provide the greatest benefit to AspireCOOP participants.

Please propose a minimum discount off the catalog for all non-line items proposed so you will be covered when future items are available in your catalog. By doing this, the price is a ceiling and not a floor. You may always lower your price or increase your minimum discount percentage to be more competitive in a particular situation.

You may propose all goods as a line-item list if you prefer but the PREFERRED proposal method is a minimum discount off catalog prices. You may propose, both discount off a catalog AND line-item pricing for specific lists of items if you choose to.

Caution: Using the Markup method of pricing may exclude some participants when using Federal funds as Federal regulations prohibit this type of pricing and some local regulations prohibit this type of pricing, and it always requires the proposer to make available to AspireCOOP or its participants proof of the cost of the item to the proposer to verify the markup is applied according to the terms of this solicitation and resulting award.

You may stipulate different discounts off on specific brands or lines of goods if you desire.

Escalation-Include annual price escalation not to exceed percentage. We highly recommend anchoring a commonly known price index such as the CPI or common trade publication index. If goods or service components face market exposure include this in your submission.

Service Incidental to the Sale of Goods

Many times, the sale of goods may be accompanied by the installation or set up of said goods. Proposers may submit pricing for the services in a Pricing Sheet spreadsheet as an attachment.

Any and All SERVICES may be proposed, but must be priced either as a line item or as a discount off the published Catalog price for said services. You may provide a catalog of services or a link to the available services or you may create a AspireCOOP-specific Catalog list of services with applicable pricing. Please specify or illustrate your chosen method.

If LINE ITEM GOODS pricing is proposed, then during the life of the award, prices may be increased only commensurate, dollar for dollar as your cost for the item increases. To increase the price of line item priced goods, vendor may be required to submit proof from the manufacturer or distributor that the pricing has

increased and by how much.

NOTE: FAILURE TO PROPOSE SERVICES SHALL EXCLUDE THEM FROM YOUR OFFERING THROUGH THIS AWARD. THUS, PLEASE INCLUDE THEM IN SOME CALCULABLE WAY. YOU MAY PROVIDE A PERCENTAGE DISCOUNT OFF POSTED PRICES OR CATALOG PRICES FOR THE LOCATION OF THE STORE OR IN SOME SPECIFIC MANNER THAT FITS YOUR BUSINESS MODEL.

When using line item pricing, vendor should provide a pricing template with a maximum price increase percentage for annually for renewal years.
