The purpose of the Historically Underutilized Business (HUB) Program is to promote full and equal business opportunities for all businesses in State contracting in accordance with the goals specified in the State of Texas Disparity Study. Each state agency must make a good faith effort to meet or exceed the goals identified below and assist HUBs in receiving a portion of the total contract value of all contracts that the agency expects to award in a fiscal year in accordance with the following procurement goals/percentages:

1. 11.2% for heavy construction other than building contracts.
2. 21.1% for all building construction, including general contractors and operative builders' contracts.
3. 32.9% for all special trade construction contracts.
4. 23.7% for professional services contracts.
5. 26.0% for all other services contracts.
6. 21.1% for commodities contracts.

It is the policy of TxDOT to make a good faith effort to achieve the annual program goals by contracting directly with HUBs or indirectly through subcontracting opportunities in accordance with the Texas Government Code, Chapter 2161, Subchapter F, and HUB Rules promulgated by the Comptroller of Public Accounts (CPA), 34 TAC, Chapter 20.

HUBs are strongly urged to respond to this RFO. Under Texas law, state agencies are required to make a good faith effort to assist HUBs in receiving certain percentages of the total value of contract awards. Respondents who meet the qualifications are strongly encouraged to apply for certification as HUBs.

3.7.8.2 HUB Subcontracting Plan

TxDOT has determined that subcontracting is probable under any contract awarded as a result of this RFO (Reference **Attachment 7 Historically Underutilized Business Participation Form**).

3.7.9 Exceptions to Requirements (including MSA Terms and Conditions)

The final terms and conditions of any Contract awarded as a result of this RFO must be agreed upon during negotiation. However, the minimum standard terms and conditions that will be included in any awarded Contract are contained in the Master Services Agreement (MSA) included

in the RFO documents.

3.7.9.1 Exceptions Details

This section contains the format for Respondents to note any exception to any standard provision, term, or condition specified in the RFO. **Respondents should note that TxDOT expects each Respondent to comply with the requirements of this RFO as written, and to price its Response accordingly. TxDOT strongly discourages any Respondent from indicating that it does not agree or does not comply with a provision because the Respondent is unwilling to price it (for risk, liability, or any other reason).** An explanation as to why the Respondent **cannot** comply with the provision, term, or condition **and** why the proposed alternative language **must** be included in the Response. Examples of nonresponsive explanations include:

1. Referencing negotiation of revised language in another TxDOT or other state agency contract.
2. Referring to an internal division's need for the revised language without a valid reason as to why the exception is necessary.
3. Indicating the proposed language is "negotiable;" and
4. Referencing an internal Respondent terms and conditions document.

Exceptions must include:

1. RFO document title (RFO, SOW, MSA, etc.), section number, and section title.
2. Explanation as to why Respondent cannot comply with the term or condition; and
3. Proposed alternate language (redline).

If Respondent fails to note any exception within its Response, Respondent may not be allowed to request an exception throughout the procurement process. No exceptions will be considered after negotiations or Contract Award.

5. The column labeled Objection/Issue must describe the Respondents issue and/or objection to the term defined in the requirement documents, including the required explanation described in [Section 3.7.9.1 Exceptions Details](#).

7. Respondent should not modify or remove any of the columns in the template, including the hidden columns.
8. For the Response, the Respondent must provide, as a separate Microsoft Excel document, a file entitled: “ABC_Exceptions.xlsx.”

Respondents are encouraged not to request exceptions to standard contract terms and conditions; TxDOT, in its sole discretion, may or may not accept the Respondent’s requested exceptions. Exceptions will be one (1) factor considered by TxDOT in determining best value for the State.

Prior to the final award of a Contract, TxDOT reserves the right to make changes to the Master Services Agreement. Should this occur, any Respondent selected for negotiations will be notified. If any changes are made prior to the RFO Response deadline, TxDOT will address the changes in an Addendum posted to Bonfire and Notification of Additional Information on the ESBD.

If there are no exceptions, the Respondent must explicitly state the Respondent takes no exception to any part of this RFO.

Any exception may result in the Contract not being awarded to the Respondent. TxDOT reserves the right to exclude a Respondent based upon the quality and substance of any exception(s).

In addition to completing [Attachment 3 Exceptions](#), Respondent must include in its Response a red-lined version of the MSA containing only those Exceptions specific to MSA material. Further, Respondent must include a comment with each redline providing the above-described explanation for why the redlined language is necessary and why the Respondent cannot comply with the original language. For the Response, the Respondent must provide, as a separate Adobe PDF document, a file entitled: “ABC_MSA_Exceptions.pdf.”

3.13. Public Information

TxDOT is a government agency subject to the Texas Public Information Act. Responses submitted to TxDOT as a result of this RFO are subject to release as public information after contracts are executed or if the procurement is terminated. Respondent may not mark its complete Response “copyrighted” or mark every page as proprietary or confidential, but if a Respondent believes that its Response, or parts of its Response, may be exempted from disclosure under Texas law, the Respondent must specify page-by-page and line-by-line the parts of the Response that it believes are exempt. In addition, the Respondent must specify which exception(s) are applicable and provide detailed reasons substantiating the exception(s). **Any part of Respondent’s Response not specifically marked as confidential by Respondent is subject to release as public information**

Respondents are advised to consult with their legal counsel concerning disclosure issues resulting from this procurement process and to take precautions to safeguard trade secrets and other proprietary information.

3.14. News Release

Respondent-initiated news releases pertaining to this RFO must not be made without prior written approval of TxDOT, in its sole and absolute discretion. A minimum of ten (10) Business Days written notice is required for such approval.

4. EVALUATIONS, NEGOTIATIONS, AND AWARD

4.1. Evaluation of Responses

TxDOT will review Responses to determine responsiveness to this RFO. All determinations about responsiveness to this RFO are final. All Responses determined to be responsive will go through a financial review overseen by the TxDOT Financial Management Division. **The financial review (here, a review of the financial solvency of the Respondent) and Completed HUB Subcontracting Plan is a pass/fail determination, failure may result in a vendor be found non- responsive.** Only Responses that pass will be considered for award.

At any time during the evaluation process, TxDOT may ask any or all Respondents to elaborate on or clarify specific points or portions of their Response. TxDOT's request and Respondent's response must be in writing.

4.2. Evaluation Criteria

4.2.1 Pass/Fail Criteria

In addition to the weighted criteria listed below TxDOT also reviews additional Pass/Fail criteria as follows:

1. Financial Information is a Pass/Fail review conducted by the Financial Management Division.
2. Completion and signing of RFO Attachment 1 Execution of Offer
3. Completion and signing of HUB Subcontracting Plan; and

1	Quality of Solution	40 pts
2	Service Integration Approach	30 pts
3	Experience and Past Performance	20 pts
4	Pricing and Financial Terms	10 pts
5	Exceptions*	N/A

*Exceptions will be considered. The Respondent may be removed from further consideration if TxDOT determines its exceptions are excessive in quantity or substance. See [Section 3.7.9 Exceptions to Requirements \(including MSA Terms and Conditions\)](#) for additional information regarding Exceptions.

TxDOT's evaluation of Respondent's history and experience may include consideration of Respondent performance as recorded in the CPA Vendor Performance Tracking System as described in the Texas Administrative Code, 34 TAC 20.115. TxDOT may also conduct reference checks with other entities regarding past performance. In addition to evaluating performance through the Vendor Performance Tracking System (as authorized by 34 TAC §20.115) TxDOT may examine other sources of vendor performance including, but not limited to, notices of termination, cure notices, assessments of liquidated damages, litigation, audit reports, and non-renewal of contracts. Any such investigations will be at the sole discretion of TxDOT and any negative findings, as determined by TxDOT, may result in non-award to respondent. Throughout the evaluation process, TxDOT may elect to evaluate other aspects of the Respondent's performance, such as Clarification sessions, including Respondent's presentation and proposed key staff's performance, Requests for Revised Offer (RFRO), etc. TxDOT will notify applicable Respondents when additional scoring will occur and will provide updated weights, etc., as appropriate.

* TxDOT will not score Exceptions; however, Exceptions will be considered in light of a Respondent's scores on the other weighted criteria.

4.3. Clarification and Integration Sessions

Based on Respondent evaluation scores and prior to Award, TxDOT in its discretion may hold a series of clarification, discussion, and/or integrations sessions with selected Respondents to ensure

complete and accurate understanding of Responses to this RFO. These sessions may include oral presentations, solution/product demonstrations, and integration discussions with other Service Component Providers.

TxDOT, in its discretion, may also hold a series of Integration sessions between select Respondent(s) and TxDOT Service Component Providers, to align the proposed solutions with current offerings as well as with potential Service Component Providers responding to other related solicitations. To facilitate these sessions, the State may distribute Respondent Solution Document to participants as appropriate.

NOTE: The Solution Document or other Response material will not be shared with other Respondents during the solicitation process. After Contract Award, TxDOT will follow the process described in [Section 3.13 Public Information](#).

Respondent must not mark any of the Respondent Solution Document as confidential or copyright material. Failure by Respondent to allow such distribution of its solution may disqualify the Respondent from inclusion in further procurement discussions.

This RFO is intended to provide Respondent with enough information to build its Response, but it is the Respondent's responsibility to obtain any additional information deemed necessary for the Respondent to meet its obligations under the terms of this RFO. Respondents participating in Clarification sessions will submit a written Due Diligence plan to TxDOT as part of its amended Response.

4.4. Revised Offer

After the initial scoring, TxDOT may determine which responses may reasonably be considered for award selection and, at its discretion, may narrow the field of respondents that may participate in subsequent evaluation activities such as additional discussion sessions or a Revised Offer process. To the extent that the Revised Offer process is employed, TxDOT will evaluate revised offers in a manner consistent with the established best value scoring criteria.

TxDOT reserves the right to continue to evaluate Responses until such point as the best value, as defined by Texas Government Code, sections 2157.003 and 2155.074, is obtained for the State.

4.5. Negotiations

At the conclusion of the evaluation, as described within [Sections 4.1 Evaluation of Responses](#) and [4.4 Revised Offer](#) and above, TxDOT will determine the number of Respondents with which it will start Contract negotiations. Negotiations will continue until TxDOT, in its sole discretion, determines that the best value for the State has been obtained.

4.6. Award of Contract

TxDOT reserves the right to make award or awards to best serve the interest of the state.

Award will be made to the respondent(s) providing the best value to the state. Any award for this RFO will be posted under solicitation number in the header of this document on the ESD, <http://www.txsmartbuy.com/sp>, upon execution of a Contract. All Responses and working papers

pursuant to this RFO are not subject to disclosure under the Public Information Act until all Contracts resulting from this RFO have been executed.

The issuance of this RFO does not imply that TxDOT is making an offer to do business with any RFO recipient or Respondent. No agreement or other binding obligation on TxDOT is implied or will occur unless and until a definitive agreement is executed. The issuance of this RFO and the submission of the Respondent's Response do not create any obligation upon TxDOT to purchase goods or Services from the Respondent, or to enter into any binding legal relationship with one (1) or more of the Respondents.
